RiverBank

Job description – Software Engineer

Company Profile

RiverBank is a specialised lender dedicated to financing Small and Medium Enterprises with focus on Benelux, Germany and France. RiverBank operates under a full European Banking License allowing to cover all European countries.

RiverBank's mission is to combine the best of the fintech and banking world. As experienced bankers, we commit the bank's balance sheet to grant loans which we analyse using a fundamental credit approach. As a fintech player, we digitally source, process and monitor the loans. Riverbank is growing fast both organically and through acquisitions.

As a young company, the talent and passion of our people is critical to our success. Together, we share a common set of values rooted in integrity, excellence and strong team work. RiverBank will offer an entrepreneurial environment within the regulatory banking framework - a place for people to learn, to achieve and grow. Our culture will promote diversity and individual perspectives in an international environment, represented by more than 10 nationalities.

Role Profile

Technology is a vital part of the Bank's strategy for platform development. We are seeking a Software Engineer working within our software engineering team to build innovative products and portfolio management solutions. To succeed in this role, you should be a strong analytical thinker with a "can do" attitude.

Challenges

- Designing and building applications such as user interfaces, APIs and microservices
- Taking into account performance, tests, documentation etc
- Working within a regulatory framework

Must have

- No diploma required, passion and skills are sufficient
- Solid experience building web applications
- At least one significant experience using intensively C# and/or Angular
- Eager to learn new skills
- Result oriented and focus on the value created by your developments
- Good communication skills and can speak & write English and/or French

Nice to have

- Experience with Entity Framework
- Experience with containers
- Experience with CI/CD
